More information required on back of form.

Customer Drawing of New Service Site

Please use the empty box above to provide a drawing of your construction site. Please review the drawing legend found to the right of this paragraph. If any of the items in the drawing legend exist or are planned for your site, please mark them on the map with the appropriate symbols. If this request is for a commercial project, a detail site plan and electric and gas load information is required.

Before your service is installed, you are responsible for physically marking on your property any customer-owned facilities including, but not limited to, underground sprinkler systems, septic systems, and satellite dish cabling. NorthWestern Energy cannot be responsible for repairing any unmarked customer-owned facilities. If you have questions on how to appropriately mark your facilities, please contact your local New Construction department.

THE SERVICE LINE TO YOUR HOUSE WILL BE STAKED IN ADVANCE OF CONSTRUCTION. REQUEST FOR SERVICE INSTALLATION IN FROZEN GROUND MAY RESULT IN ADDITIONAL CHARGES FOR INSTALLATION. AFTER INSTALLATION OF YOUR SERVICE, NORTHWESTERN ENERGY WILL RESTORE THE SERVICE ROUTE TO THE EXISTING GRADE. YOU ARE RESPONSIBLE FOR ANY LANDSCAPE OR VEGETATION RESTORATION.

DRAWING LEGEND:
